Step 11.	On the left, click the "My Computer" icon
Step 12.	Browse you computer for the logo, highlight it and hit "Open"
Step 13.	The image should appear on the bottom left of your screen.
Step 14.	Drag the image into the "Upload Your Design" area on the sample t-shirt

Step 15.	You may see a warning image like this for two reasons. First, if you click on it you will be told to keep the image inside the "Safety Line" depicted on the shirt. You can tell it never to tell you that again.
Step 16.	The image will initially look very small on the shirt. Click the image and a menu will appear with and option to "Move/Resize" the image. Blue Circles will appear on the corners of the image. Use those to make the image larger within the "Safety Lines." Drag the image from the center to move it on the shirt.
Step 17.	After moving and resizing the image, you may see the warning image again. Clicking it will tell you the image may appear blurry. Decrease the size of the image incrementally, re-centering it as you do, until the image no longer appears. Then hit Next
Step 18.	Unless you have something you would like to print on the back of the t-shirt, hit Next again when that option appears.
Step 19.	Check the "I have reviewed and approve my order" box. Hit Next
Step 20.	Choose the sizes and number of shirts you want to order. Then hit Add to cart
